The time period for reply, if any, is set in the attached communication.

Advisory Action Before the Filing of an Appeal Brief

| Application No. | | Applicant(s) | | |
|-----------------|-------------|--------------|--|--|
| | 10/646,383 | COPA ET AL. | | |
| | Examiner | Art Unit | | |
| | DIANE YABUT | 3734 | | |

--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

| THE REPLY FILED | 19 November 2008 | FAILS TO PLACE | THIS APPLICATION | IN CONDITION FOR ALLOWANCE. | |
|-----------------|------------------|----------------|------------------|-----------------------------|--|
| | | | | | |

- 1. X The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:
 - a) The period for reply expires 3 months from the mailing date of the final rejection.
 - b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

NOTICE OF APPEAL

The Notice of Appeal was filed on . A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

AMENDMENTS

- 3. 🔲 The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because (a) They raise new issues that would require further consideration and/or search (see NOTE below);
 (b) They raise the issue of new matter (see NOTE below);

 - (c) They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
 - (d) They present additional claims without canceling a corresponding number of finally rejected claims.
- NOTE: . (See 37 CFR 1.116 and 41.33(a)).
- The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).
- Applicant's reply has overcome the following rejection(s):
- 6. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
- 7. X For purposes of appeal, the proposed amendment(s): a) X will not be entered, or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended. The status of the claim(s) is (or will be) as follows:
 - Claim(s) allowed:
 - Claim(s) objected to:
 - Claim(s) rejected: 1-14 and 26-31
 - Claim(s) withdrawn from consideration:

AFFIDAVIT OR OTHER EVIDENCE

- 8. The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).
- 9. The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing a good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).
- 10. The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached. REQUEST FOR RECONSIDERATION/OTHER

- 11. The request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet.
- Note the attached Information Disclosure Statement(s), (PTO/SB/08) Paper No(s). 13. Other: .

/Todd E Manahan/

Supervisory Patent Examiner, Art Unit 3731

Continuation of 11, does NOT place the application in condition for allowance because:

The arguments submitted 11/19/2008 have been fully considered but are not persuasive.

Applicant generally argues that Orban does not teach or teaches away from using a tissue approximating structure that can be extended and retracted from the catheter body wall, but rather teaches expelling a device from an internal lumen or of a distal end of a hollow insertion device. The examiner disagrees. The claims only require that the tissue approximating structure be extended and retracted away from a catheter body wall, and Orban discloses the tissue approximating structures 110 may be extended (Figure 8) and retracted (Figure 7) from or away from the catheter body wall by moving the catheter 180 proximally or distally. It is not recited that the tissue approximating structures be extended and retracted through the catheter body sidewall.

In response to applicant's argument against the Salama reference not having of teaching away from using a tissue approximating structure capable of contacting itssue selected from the bladder, perineal wall, and urethral itssue, one cannot show nonobviousness yet attacking references individually where the rejections are based on combinations of references. Salama is meant to be combined with Orban who teaches tissue approximating structures that are located in the region of the bladder, urethra, and urethral stump.

In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior at to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. In this cases, since both Salama and Orban teach anastomosis or tissue approximation would have ocurred to one skilled in the art to modify Salama with Orban by providing tissue approximating structure or means comprising multiple opposing tines at the distal end of a cathleter body in order to facilitate the approximation of opposing tissue opproximation.
